Task Analysis

How?

- 3D-printing
- fabric?
- Processes?
  - User Assembly?
  - Aesthetics
  - CAD
  - CAM
- Vinyl
- Plastic based?
  - Acrylic
- Wood-based?
- Laser-cut
- Router
- Stackable
- Easy to store

Who?

- Client
  - My mom
- User
  - Anyone who cooks
  - Food industry
  - Professional chefs

Where?

- In a fridge
  - Potentially humid
  - Waterproof
  - Light up
  - Cold, >5°C
  - Small
  - Extendable to fit all sizes
- In a Kitchen
  - Needs to be food safe
- Indoors

When?

- Any-time
- Non-stop functioning
- Time for maintenance?
- Done by? Easter 2026

Materials?

- Aesthetics?
  - Cheap to make
- Electronics?
- Waterproof?
- good grip
  - Suction cups
  - Look good?

Function?

- Portable
- Re-usable
